CHECK MY WEBSITE

PROFILE

Holding a Bachelor degree in Computer Engineering from **Politecnico di Milano**, I have amassed four years of experience in software development. With a solid knowledgeof the **LAMP** stack and expertise in using various technologies, including **Next.js**, I have worked on numerous projects as a **full-stack developer**. Furthermore, I have a strong background in front-end development and have crafted user-friendly and efficient interfaces for a variety of applications. My goal is to continue growing and honing my technical skills to contribute to the success of future projects I will be a part of.
