## ABOUT ME

I'm Simone, a **Tech Lead** with a strong focus on scalable front-end architecture and cloud-integrated applications.

Experienced in guiding development teams, mentoring engineers, and driving technical decisions across multiple projects in **Agile** environments.

Hands-on experience with **React, TypeScript, AWS, and AI-driven systems**, with growing expertise in DevOps practices and **CI/CD automation**.

## TECHNICAL SKILLS

- **Frontend**
  - React.js, TypeScript, Redux, Next.js, Vitest, Jest
  - HTML5, CSS3, Tailwind
- **Backend**
  - PHP (Laravel), Node.js
- **Cloud & DevOps**
  - AWS (Certified Solutions Architect)
  - CI/CD, Git, AWS CodeCommit

## CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Professional Scrum Developer™ I (PSD I)
- Watsonx.ai Technical Sales Intermediate
- IBM Generative & Agentic AI Expert
- IBM Mentor
- DevSecOps Essentials

## WORK EXPERIENCE

### IBM – Client Innovation Center

07/2023 – Present

#### Tech Lead

01/2025 – Present

As a **Technical Lead**, I lead a team of up to **6 engineers**, focusing on **technical direction, mentoring, and delivery alignment**. I act as the main point of contact for clients, translating business needs into **scalable and maintainable solutions**.

I drive **code quality and architectural consistency** through structured reviews and best practices, and I designed **CI/CD pipelines using GitHub Actions**, introducing automated versioning and release processes.

I also delivered an internal **React.js training program** to support team growth and standardization.

#### Senior software engineer

07/2023 – 12/2024

As a **Senior Software Engineer**, I worked on enterprise applications, designing **scalable front-end architectures** using **React and TypeScript**. I collaborated with cross-functional teams to deliver **high-quality, maintainable solutions** in Agile environments.

I contributed to the integration of **AI-powered** features such as chatbots and intelligent search systems

### Mcallinn Italia srl

05/2023 – 07/2023

#### Full stack developer

Developed a cloud-integrated IoT platform for **real-time device monitoring**, using **Laravel and AWS (EC2, RDS, S3)**. Contributed to both backend development and cloud integration in an **Agile environment**, focusing on **scalability and reliability**.

### 226Lab GmbH

01/2021 – 05/2023

#### Full stack developer

Built and maintained web applications using **Laravel, Vue.js, Livewire, and Next.js**, working closely with clients to deliver tailored solutions. Contributed to both front-end and back-end development with a focus on **scalable architecture** and **Agile delivery**.

### Align Tech, Rotkreutz (CH) – Remote

01/2020 – 12/2020

#### Consultant – Front-end engineer

Worked on **A/B testing and UX optimization** using **Google Optimize and Optimizely**, improving user flows through **data-driven experimentation** in an Agile environment.

### LED Italia

02/2019 – 12/2019

#### Consultant – Full stack developer

Developed custom e-commerce solutions using **LAMP stack and Vue.js**, managing the full development lifecycle and aligning **technical implementation with business needs**.

## EDUCATION

### • Computer engineering – Politecnico di Milano

*Bachelor degree in computer engineering*
